## **Presentation of Hanover's best three-year-old mares**

### **3<sup>rd</sup> Herwart von der Decken-Show with a new concept**

**Verden. The third Herwart von der Decken-Show will be held on Wednesday, August 4, in Verden. It will be the opening event of the International Dressage and Show Jumping Festival, featuring the World Breeding Dressage Championships for Young Horses.**

The best three-year-old Hanoverian mares of the different regional breeding districts will be presented at the mare show. This is a new concept as last year, the best three- and four-year-old mares were still shown. It is a novelty that the competition for the best mare family will only be held every four years - next time in 2013.

The three-year-old mares will be presented in two different divisions, one for the dressage and one for the show jumping mares. Quality of movements, conformation and type will be the main features to be assessed on the triangle. In the last years, free jumping under the open sky has always been a great success. Halfbred mares will compete in their own division. This highlights the importance Hannoveraner Verband attaches to these mares for breeding riding horses. The Herwart von der Decken-Show is a specialty for breeders and horse enthusiasts. Hardly any other event provides such a unique opportunity to get a general impression on the quality standard of the Hanoverian breed.
